GOV. A. W. GILCHRIST'S INAUGURAL ADDRESS

Took Oath of Office at Noon Tuesday---Brief Sketch of His Life.

TALLAHASSEE, Fla., Jan. 5.—Albert W. Gilchrist took the oath of office as Governor of Florida today at noon in the presence of a vast throng of people, every section of the State being represented in the immense crowd.

After thanking the people for the honor conferred upon him the new chief executive said in part:

"The position of Governor imposes the obligation of being true to all the people in the State and to all the industries in the State. It requires labor, attention and executive ability to manage successfully the affairs of any business of any nature whatever. Much more labor, attention and executive ability is required in the executive office of a great and growing State like ours.

"One might shrink from assuming these obligations if he were not mindful of the fact that they were not thrust upon him. It has been said that some men are born great, some achieve greatness, and some have greatness thrust upon them. The office of Governor was not born to me; the office of Governor was not thrust upon me; the office of Governor was just wanted by me, and the people gave it to me, that's all. Besides, Governors of this and other States have assumed these obligations and are still alive. There are gentlemen who would like to assume these obligations, and they still live. It is therefore natural for me to think these obligations can be well assumed by myself. Besides, the Governor is far from being the whole thing. There will be associated with me experienced gentlemen who have filled various offices. Like myself, they have at heart the best interests of the people.

A Wise Provision.

"Your attention is invited to the fact that in many States the Governor is inaugurated coincident with the assembling of the Legislature. His remarks at the inaugural partake largely of the nature of a message to the Legislature. In our State the constitution provides for the inauguration on the first Tuesday after the first Monday in January, being three

Florida's New Governor.

months prior to the convening of the Legislature on the first Tuesday after the first Monday in April. This is a wise provision, as it gives the Governor an opportunity to become better posted as to his specific recommendations.

"No one, unless he has been Governor or has been elected Governor, can possibly imagine the great diversity of opinions, and the diversity of subjects on which these diversified opinions are expressed. Riding on trains,

in letters, in every and from every portion of the State come expressions on numerous subjects. A Governor is fortunate in having obtained these various expressions. They manifest, however, an absolute impossibility of anyone carrying out the many divergent views expressed. But a few of the subjects will be touched upon.

Good Roads and Convicts.

"Many are specially interested in good roads. Everybody should favor good roads. They would all favor them if they did not cost money.

"While speaking on the subject of roads, it might be well to refer to the convict question. You know that some of our people would like for the State convicts to be worked on the roads. On account of recent action of the Georgia Legislature the county commissioners of some of the Georgia counties met with the view of determining how many State convicts could be used by their respective counties in building good roads. Our State is very responsive to any action taken by our great neighboring State. This is due to proximity, and among other reasons to the fact that so many of our good citizens come from Georgia. Some think that in using the convicts on the roads the work will be done for nothing. They forget that in so doing the county loses its part of the hire of the convicts, and will in addition pay its cost of maintenance of the convicts. There is another reason, humanitarian, which would operate against the use of long-term convicts in the temporary camps afforded by the counties. The convict camps are now fitted up with iron beds, springs, mattresses, blankets, pillows and sheets, baths and sanitary arrangements, and comfortable houses. Hon. B. E. McLin, commissioner of agriculture, has kindly furnished me the following information: The number of State prisoners handled during the year 1907 was 1,736. The number of women handled during the year was 43. Of this number of women prisoners there are three white women for both the years 1907-8. They are at the headquarters' hospital, two being at Quincy and one at Ocala. The report about white women State convicts being sent out indiscriminately with negro prisoners is therefore a mistake. Of the total number of prisoners handled during 1907 there were 29 deaths. Of these five were killed in attempting to escape; one was killed by a falling wall; twenty-three died natural deaths. It thus appears that 1.32 per cent or thus appears that 1.32 per cent or causes. In most cases, the prisoners died from the effect of diseases contracted prior to entering the State prison. This death rate is less than what it is in some insurance companies, in which, of course, they pick their members. U. S. Census for 1907 vol. 2, p. 56, registration area U. S., being that part in which the statistics are based upon registration records, the death rate is 17.8 per 1,000. The registration area embraces the New England States, New York, New Jersey, Michigan and the District of Columbia. In the registration area, as a whole, the death rate of the native white is about 12 per 1,000 and that of the foreign white about 10 per 1,000 less than that of the colored. Then consider that a large per cent of the prisoners are colored, and that the death rate from natural causes is only 13.25 per 1,000.

"In our courts, the technicalities of 'due process of law' often prevail over the justice and real merits of the case at issue.

the counties in building roads, there would be no such small death rate. Humanity would prevent long term convicts from being used permanently in temporary camps. The commissioner of Agriculture invites attention to the fact that we stand solitary and alone in leasing women, black and white, for a moment consideration, and that we again stand alone among the States in leasing the aged, the decrepit and the young. The commissioner recommends that some provision be made for the detention of the women and the infirm on some farm owned by the State. It is to be hoped that his recommendation may sooner or later prevail. Attention is invited more particularly to the convict question, because it is liable to be a subject of legislative action at the coming session. ****

"In our courts, the technicalities of 'due process of law' often prevail over the justice and real merits of the case at issue.

Drainage and Schools.

"Much has been said about the State being 'in honor bound' to drain the Everglades. Florida received these lands under the act of Congress, by which other States received theirs. Our neighboring State of Alabama gave hers to her insane asylum. Iowa gave hers to her convicts. California sold hers. It is unknown to me if the officers of any other State have taken the position of 'in honor bound.' The matter of the drainage of the lands of the State is simply a business proposition, to be executed as the conditions warrant. In this connection, there should be considered section 4, Art. XII of the State constitution,

HON. W. M. HOLLOWAY,
State Superintendent of Public Instruction.

which provides that twenty-five per cent of the sales of all public lands now owned by the State or may hereafter be owned by the State, shall constitute a part of the State school fund, the interest of which shall be exclusively applied to the support of and maintenance of public free schools. **** The State superintendent, Hon. W. M. Holloway, informs me that the school fund for 1908 on account of the sale of public lands, was \$2,340,000. The school fund for 1907 was \$2,340,000. The school fund for 1906 was \$2,340,000.
